

Noah's Ark News

15th September 2023

Dear Parents and Carers,

This week has been spent continuing to get to know the new children and getting the returning children back into the Pre-School routines.

We have also been chatting to the children at lunch times and snack times about what they have in their lunchbox and what their favourite foods are.

We will be exploring and sharing **fruits and vegetables** over the next few weeks. Children will have the chance to taste and explore different textures. If any parents have any gluts of fruits or vegetables that you could bring in or if any one feels they would like to come in and talk to the children about growing food we would love to hear from you! Please contact the office or let your child's Key Person know if you can help us.

If you have a new starter and haven't done so already, please could you email through **some photographs for our Family book**? The children love looking through and seeing pictures of themselves, their friends and the staff with their families. Thank you.

The weather will be turning cooler and wetter next week so please could you send children with a **named, warm and waterproof** coat for each of their sessions.

Have a lovely weekend,
The Noah's Ark Team.
