

Dear Parents and Carers,

This week at Preschool, we have been **creating with materials**. We have been using the waffle blocks and rubber bricks to build large structures in the outside space, finding heavy things to move and carry, and problem solving to move large items. Indoors, we have been using watercolours to paint natural arrangements, making Easter cards and decorations.

If you are a dog owner and wish to bring your dog when dropping off or collecting your child from Preschool, please could you leave your **dog by the bike racks at the rear end of the playground**, where the Church bins are kept. This area is still visible from the playground but is far enough away from the railings so that children cannot poke their hands through. Thank you for your co-operation.

Please could you make sure your **child's water bottle is named** and that they bring it with them to every session. Thank you.

If you haven't received one already, please ask your child's Key Person about our **book borrowing scheme** and collect your Noah's Ark bag so that you can borrow books to take home from our little library.

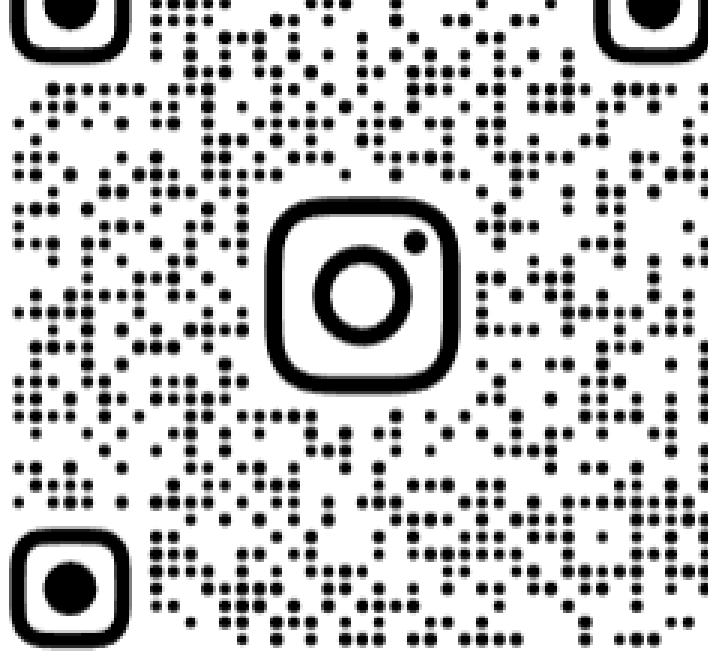

We are really looking forward to welcoming families for our **Easter Special on Tuesday 26th April 3.30—5.00pm**. Please let the Office know if you are coming along and whether you are bringing any siblings.

Have a lovely weekend,

The Noah's Ark Team.
